### Description

SPETEC SURFACE GUARD is a water based solution used to protect concrete from polyurethane resin stains.

### Uses

Preventing foam from staining/bonding to concrete and other surfaces.

### Advantages

- Environmentally safe.
- Biodegradable.
- Zero toxicity.

### Application

Note: the following are a few typical application descriptions. In case of other jobsite parameters, please contact our technical department.

#### PRELIMINARY ANALYSES

Spetec Surface Guard is only to be used for the prevention of polyurethane stains.

#### PREPARATION OF THE PRODUCT

Spetec Surface Guard is a concentrate. In a clean five gallon (18.9 liter) pail, thoroughly mix three to four gallons (11.4 to 15.1 liters) of water with one gallon (3.8 liters) of flush.

#### Application

Coat surface of concrete with Spetec Surface Guard before injecting an Alchemy-Spetec polyurethane repair product. Coated concrete surface will be resistant to stain from any excess polyurethane resin.

# **SPETEC SURFACE GUARD**

POLYURETHANE STAIN PREVENTER

## **Estimating Quantities**

Approximately one to two gallons (3.8 to 7.6 liters) of concentrate per use.

## **Packaging**

Spetec Surface Guard is supplied in 5 Gallon Pails (18.9 Liter Pails). In concentrate.

## **Storage and Shelf Life**

Store in dry environment between 40° - 80° F (5° - 26° C).

## **Safety Precautions**

Avoid contact with eyes and skin, always use personal protective equipment in compliance with local regulations. Read the relevant Safety Data Sheet before use. Safety Data Sheets are available on [Alchatek.com](http://Alchatek.com). When in doubt contact Alchatek Technical Service.
